Summary

BCA student specializing in Data Science and AI, with expertise in Python, ML, DL (CNN), and web development. Proven experience in building real-world projects like a Face Recognition Attendance System and a Movie Recommendation System. Seeking internship opportunities to leverage and grow my skills.

Skills

- ❖ Web Development: HTML, CSS, JavaScript, Node.js
- ❖ Python (Advanced), Java (with DSA)
- ❖ Machine Learning (ML), Deep Learning (CNN)
- ❖ Power BI, SQL, MongoDB (Basic)
- ❖ Linux Shell Programming (Basic)

Education

- ❖ BCA - Data Science & AI | BBD University, Lucknow | Sept 2026 (Expected)
- ❖ 12th Grade - PCM Background | Passed in 2022

Projects

- ❖ Face Recognition Attendance System: Python, OpenCV, CNN. Automates attendance using facial recognition.
- ❖ Movie Recommendation System: Python, ML, NLTK. Recommends movies based on user preferences.
- ❖ Portfolio Website: HTML, CSS, JavaScript. Showcases my projects and skills.

Certifications

- ❖ Data Science Level 1 - IBM
- ❖ Analytics in IBM Cognos
- ❖ Machine Learning - Udemy
- ❖ Cyber Security - Microsoft
- ❖ Java Basics - Government of India

Certificates available on LinkedIn.

Interests

- ❖ Exploring AI, Stock Market(Trading), Foreign Affairs, Fitness, International Networking
